PROFESSIONAL SUMMARY

Full Stack Developer with 3+ years of experience building scalable web applications, dashboards, and e-commerce systems. Skilled in React.js, Next.js, Node.js, Express.js, MongoDB, and PostgreSQL. Experienced in CI/CD workflows, Docker-based development, Git collaboration, and performance optimization. Strong focus on building production-ready applications with clean architecture, responsive UI, and efficient APIs.

CORE TECHNOLOGIES

Frontend

- React.js
- Next.js
- JavaScript (ES6+)
- HTML5
- CSS3
- Tailwind CSS
- Bootstrap
- Framer Motion
- GSAP

Backend

- Node.js
- Express.js
- REST APIs
- JWT Authentication
- OAuth
- API Security

Databases

- MongoDB
- Mongoose
- PostgreSQL

Tools

- Git
- GitHub
- Postman
- Vite
- Vercel
- Netlify
- Render

DevOps:

- Docker
- CI/CD (GitHub Actions, Vercel, Render)
- Git workflows

PROFESSIONAL EXPERIENCE

Full Stack Developer — BCT Limited

Jan 2023 – Present

- **Built and maintained 6+ full-stack applications**
- **Developed 25+ REST API endpoints**
- **Implemented CI/CD pipelines for automated deployments**
- **Used Docker for development consistency**
- **Improved performance through API and frontend optimization**
- **Applied Git workflows (branching, PR reviews)**

Full Stack Developer — NUPAT Technologies

May 2023 – Dec 2023

- **Delivered 5+ client applications**
- **Built reusable React components**
- **Integrated payments, email, and external APIs**
- **Participated in Git-based team workflows**
- **Assisted deployment and maintenance**

FEATURED PROJECTS

Dental Clinic Management Website

Tech Stack: React, Framer Motion, CSS

- **Designed and developed a modern healthcare website focused on patient engagement and appointment booking.**
- **Created interactive service sections and responsive layouts.**
- **Implemented smooth animations to improve user experience.**
- **Deployed production-ready application using Vercel.**

GitHub: <https://github.com/ijay-create/crm-app-server.git>

E-Commerce Platform

Tech Stack: React, Node.js, Express, MongoDB, JWT, Paystack

- Built complete e-commerce functionality including authentication, product management, shopping cart, checkout process, and administration dashboard.
- Developed secure REST APIs for managing products and user transactions.
- Implemented role-based access controls for administrators and customers.

Live Demo: <https://luxewigs-git-main-ijay-creates-projects.vercel.app/>

GitHub: <https://github.com/ijay-create/LuxeWigs.git>

Fintech Dashboard System

Tech Stack: Next.js, REST APIs, PostgreSQL, Node.js

- Developed a role-based dashboard for managing business operations.

- Implemented secure authentication and data visualization features.
- Built scalable backend architecture for future expansion.

Live Demo: <https://bank-client-ecru.vercel.app/>

GitHub: <https://github.com/ijay-create/bank-server.git>

UI/UX DESIGN

- Designed responsive web interfaces using modern design principles.
- Created wireframes, user flows, and interactive prototypes.
- Applied accessibility standards and usability best practices.
- Translated design concepts into production-ready React applications.

Tools

- Figma
- Adobe XD (if applicable)
- Framer Motion

KEY ACHIEVEMENTS

- Delivered **12+ production-level applications**
- Built **25+ REST APIs**
- Implemented **CI/CD workflows**
- Used **Docker for environment consistency**
- Applied **Git workflows in team development**
- Integrated **payment systems and third-party APIs**
- Improved frontend performance across multiple projects

EDUCATION

Federal University of Technology, Owerri (FUTO)

Bachelor's Degree in Project Management Technology

2017

PROFESSIONAL TRAINING

GOMYCODE Nigeria

Full Stack Web Development

Completed: 2023
